AccountTrek from Daedalus Labs

Executive Dashboard for EDITRADE Customs Link™

Buried in paperwork?

If your customs brokerage business is like most, you may not always be as on top of your balance sheet as you would like. The people at Daedalus Labs have years of experience in the trucking, warehousing and customs brokerage industries and understand your pain.

What is AccountTrek?

AccountTrek is an affordable, Web-based accounts receivable and payable application that eliminates the guesswork associated with much of the daily operations in the customs brokerage industry. It automatically imports invoices generated by EDITRADE Customs Link™ then summarizes the data and makes it available to you from any Internet connection.

Our customers enjoy being able to monitor their A/R and A/P balances and the success of their operations without the cost and errors associated with manual data entry - anytime they want, anywhere in the world.

Is it expensive?

You may be familiar with the high-cost, hardware-intensive solutions offered by the software giants. Our Web-based model means that, for a much smaller setup fee and a monthly subscription, you can have the same features without the installation and maintenance costs.
